

Paper Full Title

Conference_Short_Name-Year
Name
July 21, 2022

I. INTRODUCTION

What is the problem that is targeted by this paper and how it is a problem? Main motivation of the paper and short description of the proposed solution.

Contributions of the paper [1]:

- 1) Contribution-1
- 2) Contribution-2

II. PROPOSAL

Main idea proposed. And specifics of the proposed solution. Should not contain low-level implementation details.

III. RESULTS

Main results. Key takeaway points. Strengths of the paper.

IV. LIMITATIONS

A. Weaknesses

Weaknesses or loopholes in the proposed idea. Any tradeoffs like more area for performance.

B. Analysis Issues

Statistical issues with the analysis. Improper baseline. Missing analysis.

C. Unanswered Questions

Some specifics of the idea not explained in the paper. Validity of the assumptions.

V. EXTENSIONS

Possible improvements on the idea. Different approach for the same problem.
